

# Sour Cream Snowball Cake

Submitted by Kreta Lee

1 White Cake Mix of your choosing

Mix according to the directions on the box. Bake in 2 round pans for a 2-layer cake. After cooling, slice each layer in half to make 4 layers. Spread 1/3 of the remaining Filling mixture between each layer of the cake. Spread the top and sides of the cake with the combined Cool Whip and Filling Icing. Refrigerate for 24 hours before serving (although we never wait that long – 2 to 4 hours is average for us).

Filling:

2 Cups Sugar	}	
2 Cups Sour Cream	}	Mix the three ingredients together
2 Cups Coconut	}	

Icing:

12 Oz. or 16 Oz. Cool Whip plus 1 Cup of the above Filling mixture.
